February → April, thirteen weeks at a glance

The crunch season on one strip: write each week's Monday date along the top, glance at which rows aim where, and do one small thing at a time. Official dates shift by year, so the date row is yours to fill.

Week of (Monday)				February				March				April		
Your dates (fill in)	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___	___ / ___
W-2 / 1099 watch	● **check last year's senders**			● **nudge anyone missing**							late ones don't block an honest file			
Intake checklist (Sheet 2)	start the pages		● **have-it boxes ticked**			● **waiting boxes answered** or honestly "not coming"								
Numbers time				● **receipt triage** to Folders 2 3			● **mileage totaled (Sheet 3)**							
File or hand off								● **folder trip** all papers travel once			● **aim to be done** April's middle, most years			breathing room by design
Quarterly payment (Sheet 4)	–	–	–	–	–	–	–	–	–	–	● **near filing week** your Sheet 4 date rules			

WARM TIP

Fill the date row first — milestones stop feeling like weather and start feeling like appointments. If a row slides, reschedule it in pencil: the strip is your map, not your boss.

This is a paper organizer, never tax, legal, or financial advice. Confirm official dates for your own year.
